[Decision Point GF/B31/DP07](#)

1. The Board notes that a portion of sources of funds may be excluded from the allocation to Country Bands for future utilization towards investments that are not adequately accommodated through the allocation of resources to Country Bands (Annex 1 to GF/B27/DP7).

2. Based on the recommendation of the Strategy, Investment and Impact Committee, as set forth in GF/B31/07, the Board:

- a. Decides that USD 200 million will be available for new Regional Programs over the 2014 – 2016 allocation period;
- b. Recognizes that Regional Programs will be presented to the Board for funding approval throughout the 2014 – 2016 allocation period; and
- c. Acknowledges funding applications that are submitted by a group of small island economies or other small countries that typically would not apply as individual countries due to inherent administrative inefficiencies (the “Multi-Country Applications”) will be funded from amounts allocated to the individual disease components participating in each Multi-Country Application.

[Decision Point GF/B31/DP08](#)

1. The Board acknowledges:

a. The Finance and Operational Performance Committee's recommendation on the amount of announced replenishment results for the 2014 – 2016 Replenishment Period, net of certain adjustments and qualifying deductions, that will be allocated to Country Bands at the start of the Allocation Period (the "Initial Allocation"), as set forth in GF/B31/06, in accordance with the Comprehensive Funding Policy, as amended and restated under decision point GF/B31/DP05; and

b. The Board's approval of the Strategy, Investment and Impact Committee's recommendation to apportion USD 100 million to finance Special Initiatives and USD 200 million to finance Regional Programs over the 2014 – 2016 period (GF/B31/DP06 and GF/B31/DP07, respectively).

2. Accordingly, the Board decides the Initial Allocation for the 2014 – 2016 Replenishment Period is USD 10.22 billion.

[Decision Point/GF/B31/DP09](#)

1. The Board notes its prior decision to approve the Amended and Restated Comprehensive Funding Policy (GF/B31/DP05) (the "CFP") as a standard financial management framework, and acknowledges unique measures are required to facilitate the 2014 allocation of resources to Country Bands, the first under the allocation-based funding model, to manage the transition from the rounds-based system.

2. Accordingly, based on the joint recommendation of the Finance and Operational Performance Committee (the "FOPC") and the Strategy, Investment and Impact Committee (the "SIIC"), the Board adopts the following transition framework:

a. The total amount that will be allocated to Country Bands (the "Total Allocation") using the allocation methodology will be comprised of the following amounts:

i. The Initial Allocation, in the amount of USD 10.22 billion, as approved under decision point GF/B31/DP08; which will determine the amount of incentive funding; and

ii. The amount of Sources of Funds, as defined in the CFP, originating from the Third Replenishment Period (2011 – 2013), or earlier, which have not been disbursed as at 31 December 2013 (the "Existing Funds"), in the amount of USD 5.55 billion, as recommended by the FOPC.

b. While each grant applicant's portion of the Total Allocation must be requested by the applicant and approved by the Board prior to 31 December 2016, it may be utilized beyond such date in accordance with the terms of the relevant grant agreement;

c. The Total Allocation will address the remaining pipeline of grant funding due to Board-approved proposals or other Board decisions originating from the Third Replenishment Period, or earlier, as at 31 December 2013, (the "Existing Grants Pipeline") while taking a comprehensive approach such that performance and strategic impact are reflected in the investment of the entirety of funds;

d. While each disease component's portion of the Total Allocation will typically cover a period of four years starting from 1 January 2014, the secretariat, working together with countries or regions has the operational flexibility to structure longer or shorter grant implementation periods while applying the principles of the allocation model to guide funding levels towards the amounts divided from the allocation formula.

e. Accordingly, a 25-percent target minimum reduction compared to the most recent available four-year disbursement levels (the “Graduated Reduction”) will be applied across the portfolio of disease components that have funding levels above their notional shares under the allocation methodology; and

f. If a disease component’s Existing Grants Pipeline exceeds the amount that would result from applying the Graduated Reduction described in paragraph 2.e. above, then instead of applying the Graduated Reduction, the disease component’s Existing Grants Pipeline will serve as a basis to determine its total allocation starting from 1 January 2014.

3. The Board notes the transition framework established under this decision represents measures tailored to address the unique circumstances and challenges of transitioning from the rounds-based system to the allocation-based funding model and shall not apply to subsequent allocations and Replenishment Periods.

[Decision Point/GF/B31/DP10](#)

1. Based on the recommendations of the Strategy, Investment and Impact Committee (the “SIIC”), the Board approves the composition of Country Bands for the 2014 – 2016 allocation period, as defined and set forth in Annex 1 to GF/B31/09 – Revision 1.

2. In accordance with its decision to approve the transition framework recommended by the Finance and Operational Performance Committee and the SIIC (GF/B31/DP09), the Board acknowledges USD [15.8] billion is available for allocation to Country Bands for the 2014 – 2016 allocation period, consisting of the following:

b. Country Band 2: USD [915] million;

c. Country Band 3: USD [1,530] million; and

d. Country Band 4: USD [1,105] million.

4. The Board also decides incentive funding, in the amount of USD [950] million, will be apportioned across and within Country Bands 1, 2 and 3 in accordance with the methodology approved by the SIIC under authority delegated by the Board (GF/SIIC09/DP2).

[Decision Point/GF/B31/DP11](#)

1. Based on the recommendation of the Audit and Ethics Committee, the Board approves the Policy for Disclosure of Reports Issued by the Inspector General, as revised and set forth in Annex 1 to GF/B31/12, which supersedes and replaces the disclosure policy adopted by the Board under GF/B20/DP23.

Accordingly, the Board approves the following revision to Section 15 of the Charter of the Office of the Inspector General¹ (the “OIG Charter”) to align the OIG Charter with the revised Policy for Disclosure of Reports Issued by the Inspector General: [On]Reporting: Final reports of Office of the Inspector General regarding its assurance and investigations work will be posted on the Global Fund’s public internet site in accordance with the Board-approved ‘Policy for Disclosure of Reports Issued by the Inspector General’
