“FRIENDS” ORGANISATIONS PROMOTE THE WORK OF THE GLOBAL FUND

Since the establishment of the Global Fund in 2002, various organisations have been formed as “Friends of the Fund.” They promote the work of the Fund and mobilise financial and political support for it.

These organisations do not receive funding from the Global Fund. They raise money from various donors. Their core of objectives and activities vary. Those from donor countries mostly carry out mobilisation of political and financial support for the Fund, while those from grant receiving countries focus on raising awareness about the three diseases and how to apply for and implement grants.

The following is a list of the Friends organisations.

[Friends Africa](#)

Friends of the Global Fund Africa was established in 2006. Its mission is to galvanise African governments, the private sector and civil society to bring about sustainable and effective methods of addressing the three diseases in Africa through Global Fund grants.
