COUNTRIES THAT HAVE NOT YET RECEIVED GLOBAL FUND GRANTS

Aidspace has conducted an analysis of all countries that meet any of the following criteria:

- Poor: Income level is “Low” or “Lower-middle”
- High prevalence: Adult HIV infection rate is above 1%
- No grant: Did not yet receive a Global Fund grant for HIV/AIDS

Eighteen countries meet all three criteria. They are listed in the following table.

Country	Income	Adult HIV	Global Fund	Has a
-----	-----	-----	-----	---

Note: Countries shown as “Did not apply?” did not apply for an HIV/AIDS grant in Round 2, and were not approved for such a grant in Round 1. it’s possible that they applied and were rejected in Round 1; such countries have not been identified by the Fund.
