Aidspan Issues Analysis of Strengths and Weaknesses of Proposals to the Fund

Aidspan, publisher of GFO, has issued a new report entitled *An Analysis of the Strengths and Weaknesses of Proposals Submitted to the Global Fund in Rounds 3-6*. The report is an extract from the forthcoming *Aidspan Guide to Round 7 Applications to the Global Fund*, which will be published in early March 2007, shortly after the Fund issues its Round 7 Call for Proposals.

The report is based entirely on a review by Aidspan of written comments made by the TRP on individual proposals.

CCMs and other organisations that are planning to submit Round 7 applications to the Global Fund can use this report to help them get a sense of proposal-development approaches that are – and are not – worth considering.

The report is available at www.aidspan.org/guides.
